Getting started

Inbox

In this tab all your created Tasks are kept – tasks that have no start and due date.

Today

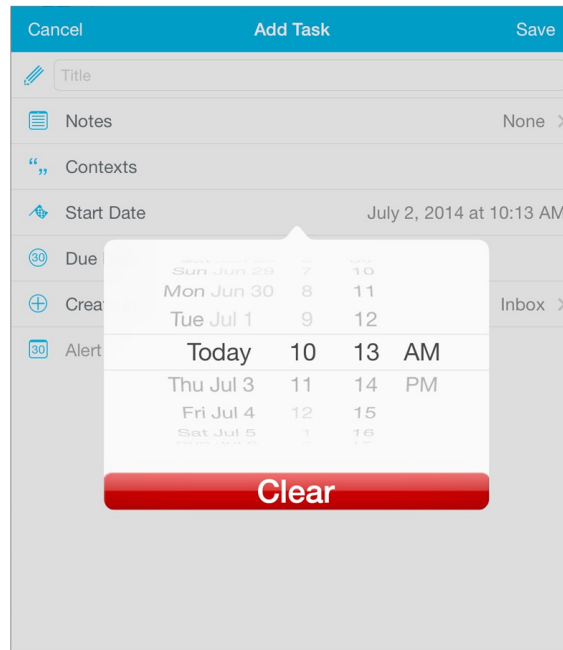

This tab keeps only those tasks which you want to do Today.

Next & Someday

Use these tabs if you want to create task but has not decided when do it.

Scheduled

It is the place which keeps tasks you want to Schedule for a later date. To create a new task in this tab, you must set **Start Date** of task.

Note: When Start Date comes, task moves from "Scheduled" tab into "Today" tab.

Task Creation

To create new task , tap «+» button in the upper right corner of the Navigation Bar.

After that, system opens «Add Task» modal window

 A screenshot of a modal window titled 'Add Task'. The window has a blue header with 'Cancel' on the left and 'Save' on the right. Below the header are several input fields:

- 'Title': A text input field with a pencil icon on the left.
- 'Notes': A text input field with a list icon on the left and 'None >' on the right.
- 'Contexts': A text input field with a quote icon on the left.
- 'Start Date': A text input field with a calendar icon on the left.
- 'Due Date': A text input field with a clock icon on the left.
- 'Create in': A text input field with a plus icon on the left and 'Inbox >' on the right.
- 'Alert': A text input field with a clock icon on the left.

Here you can add **Title** of task, **Notes**, create and select **Contexts**, set **Start Date & Due Date**, select **Place for Saving**.

You can also set an **Alert** for your task in «Today» & «Scheduled» tabs.

Due Date

When Due Date of task comes, task's color becomes red.

Mind It		Today	
Inbox	3	Print out handouts	<input type="checkbox"/>

Sorting

To sort tasks, tap «Sorting» button in the Navigation Bar

After that, system displays Popover

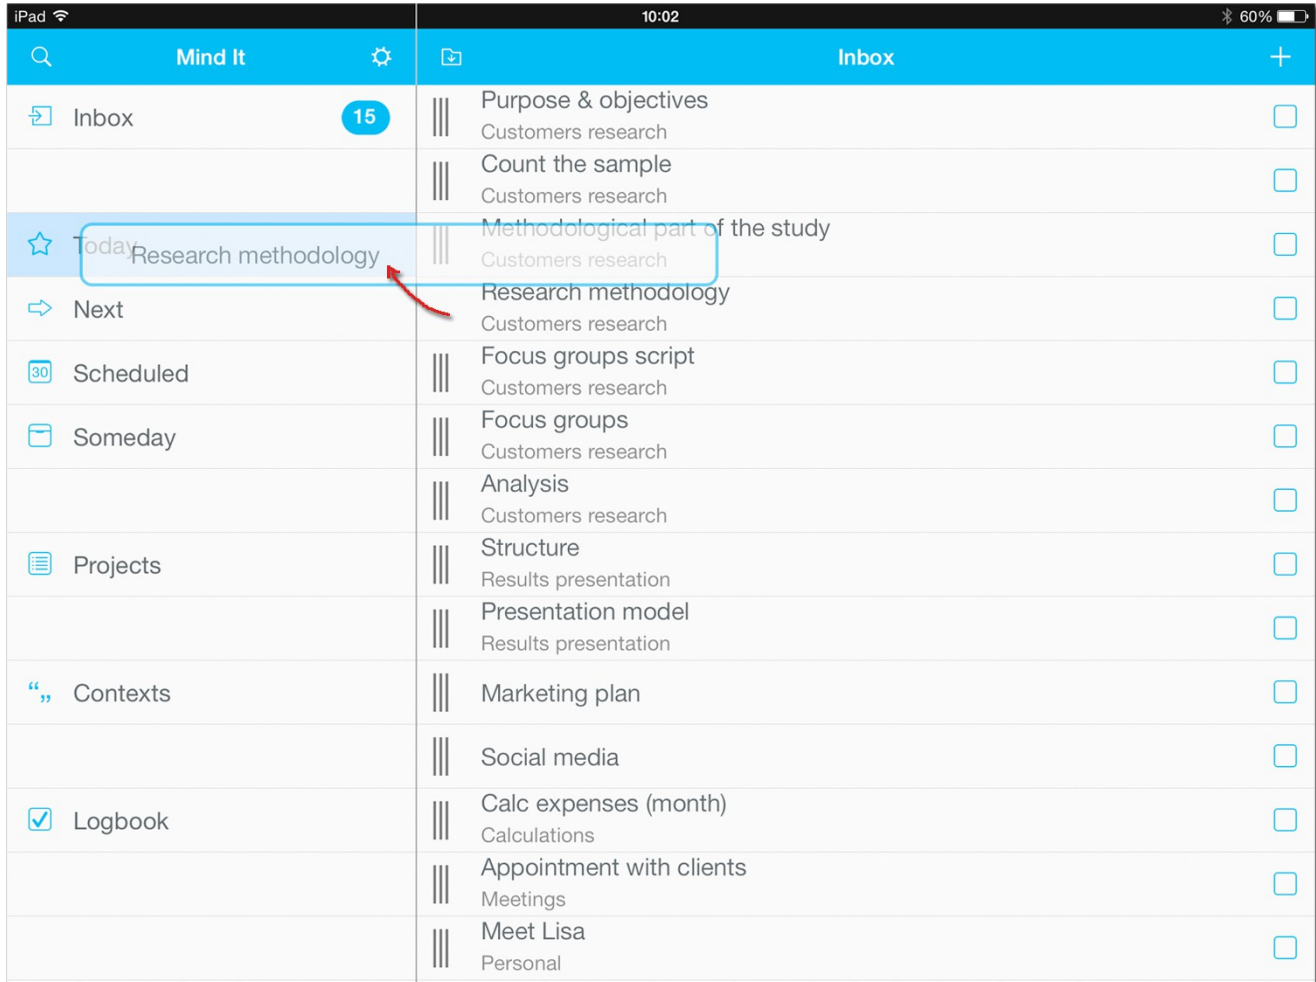

System allows you to sort tasks:

- by creation time
- by due date
- by title

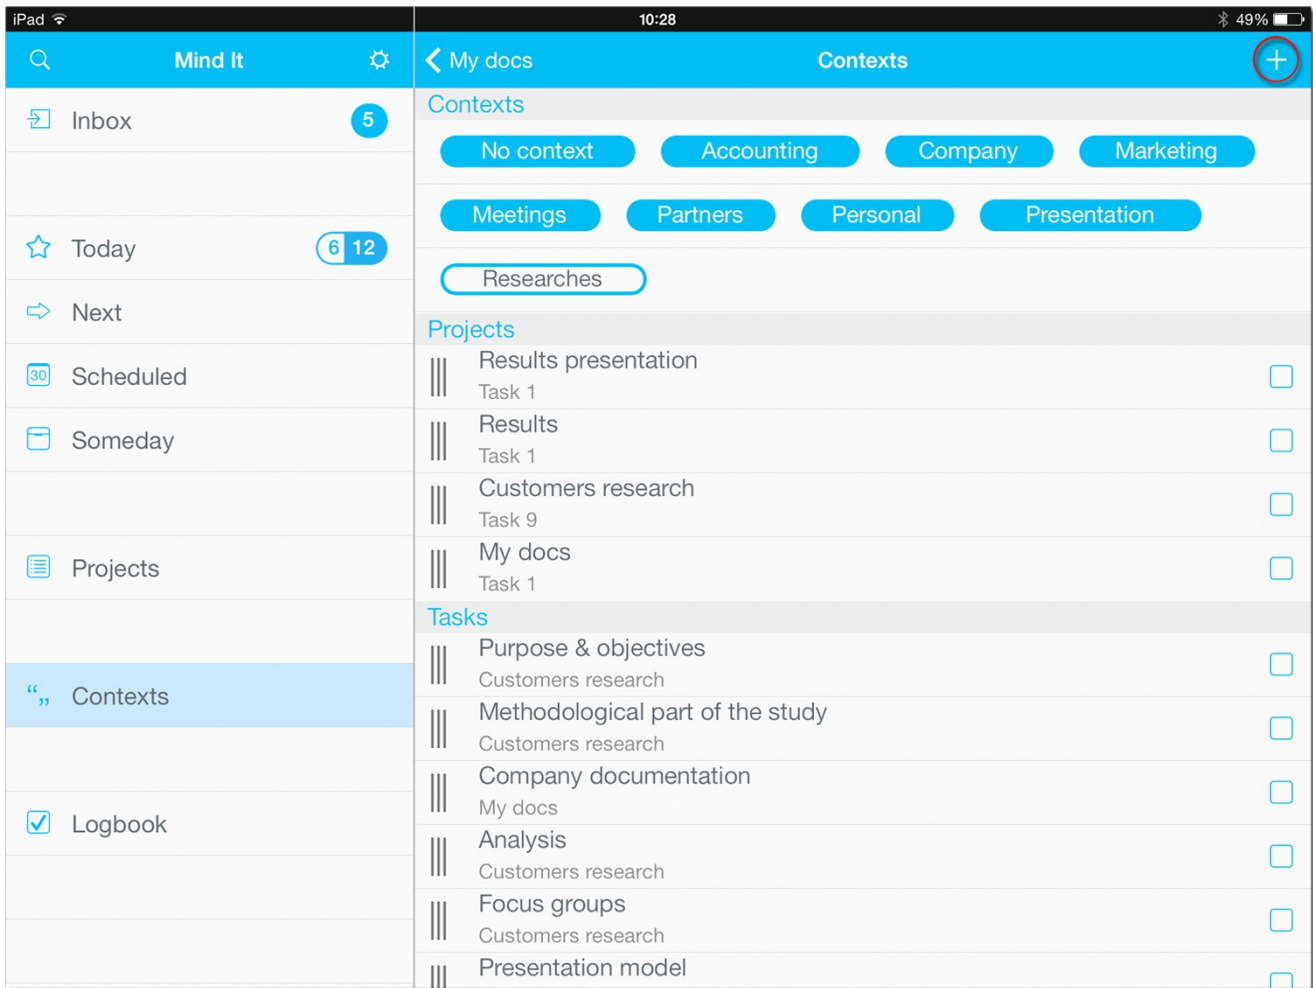

Drag & Drop

You can move the task from one tab to another by **Drag & Drop**.

Contexts

To create new context, tap «+» button in the upper right corner of the Navigation Bar.

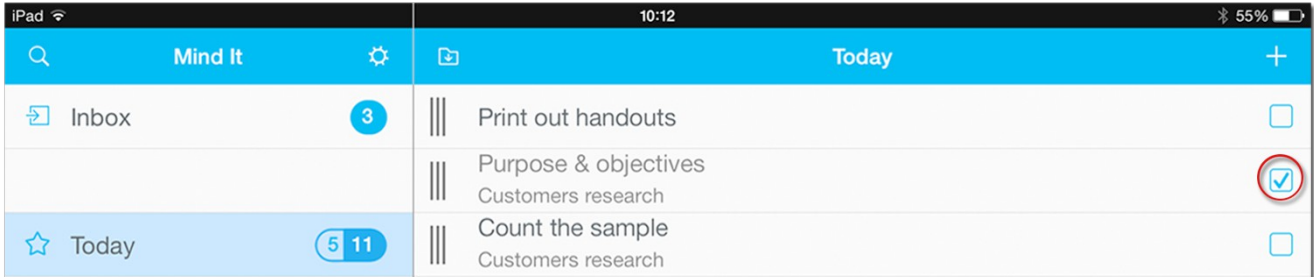

You can add created contexts to your tasks and projects. «Context» tab – it is easy way to find your tasks and projects. Tap on context and system will display you all tasks and project which have selected context.

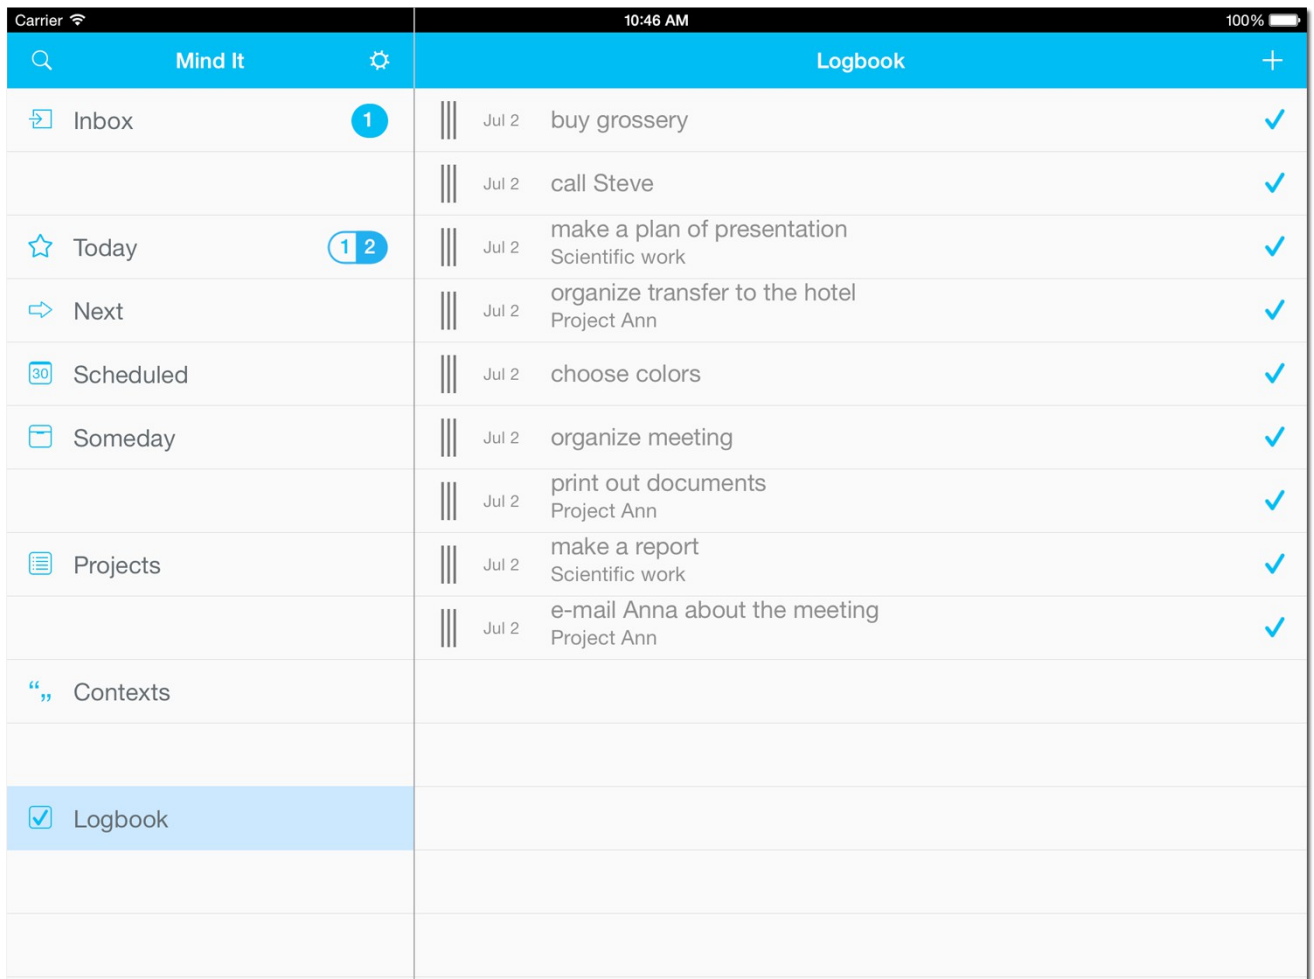

To delete a context, **tap & hold** it.

Logbook

To move task or project to «Logbook» tab, mark it in checkbox.

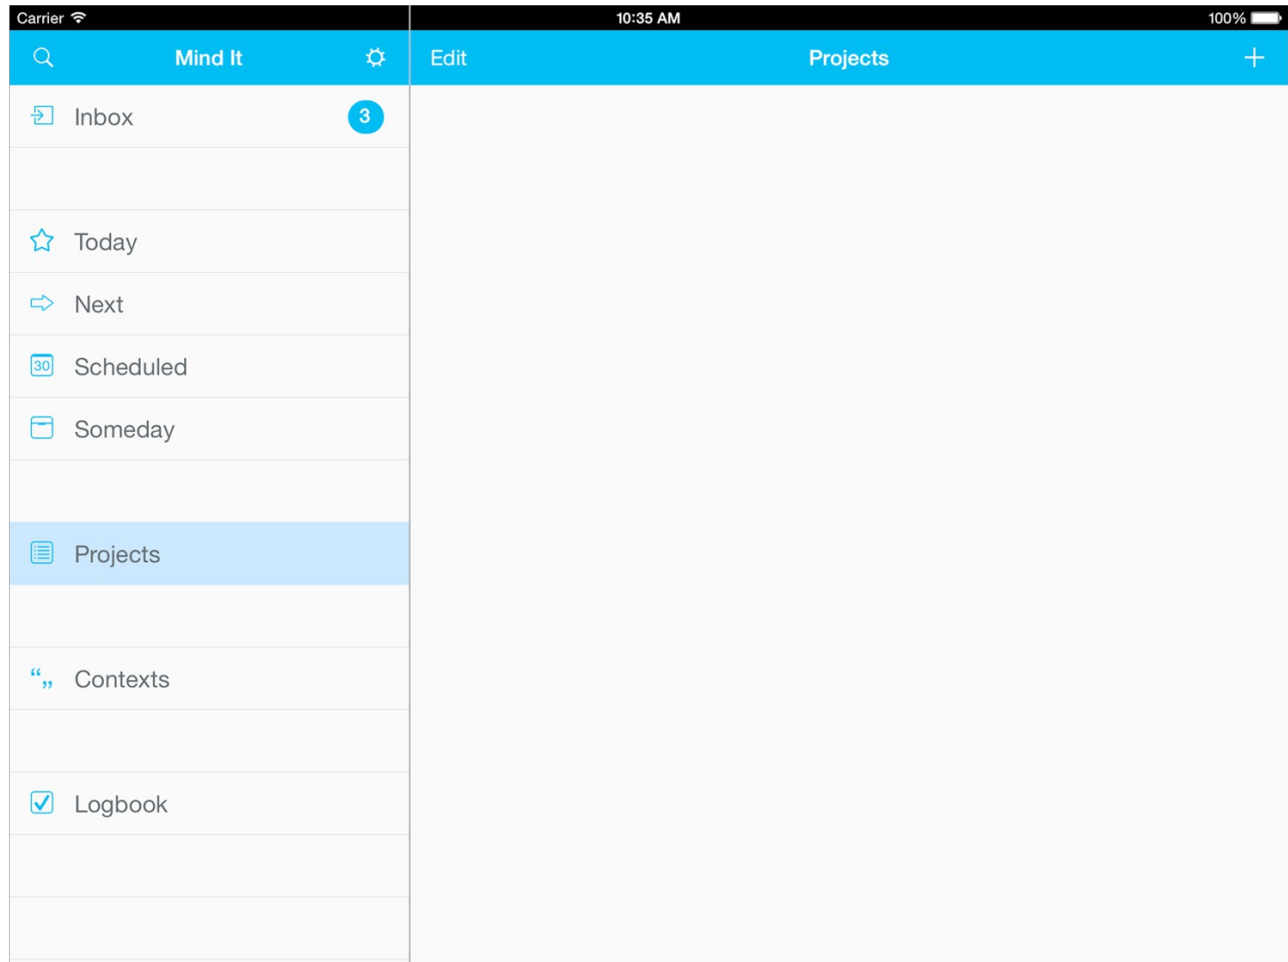

«Logbook» tab keeps all completed tasks and projects.

Projects

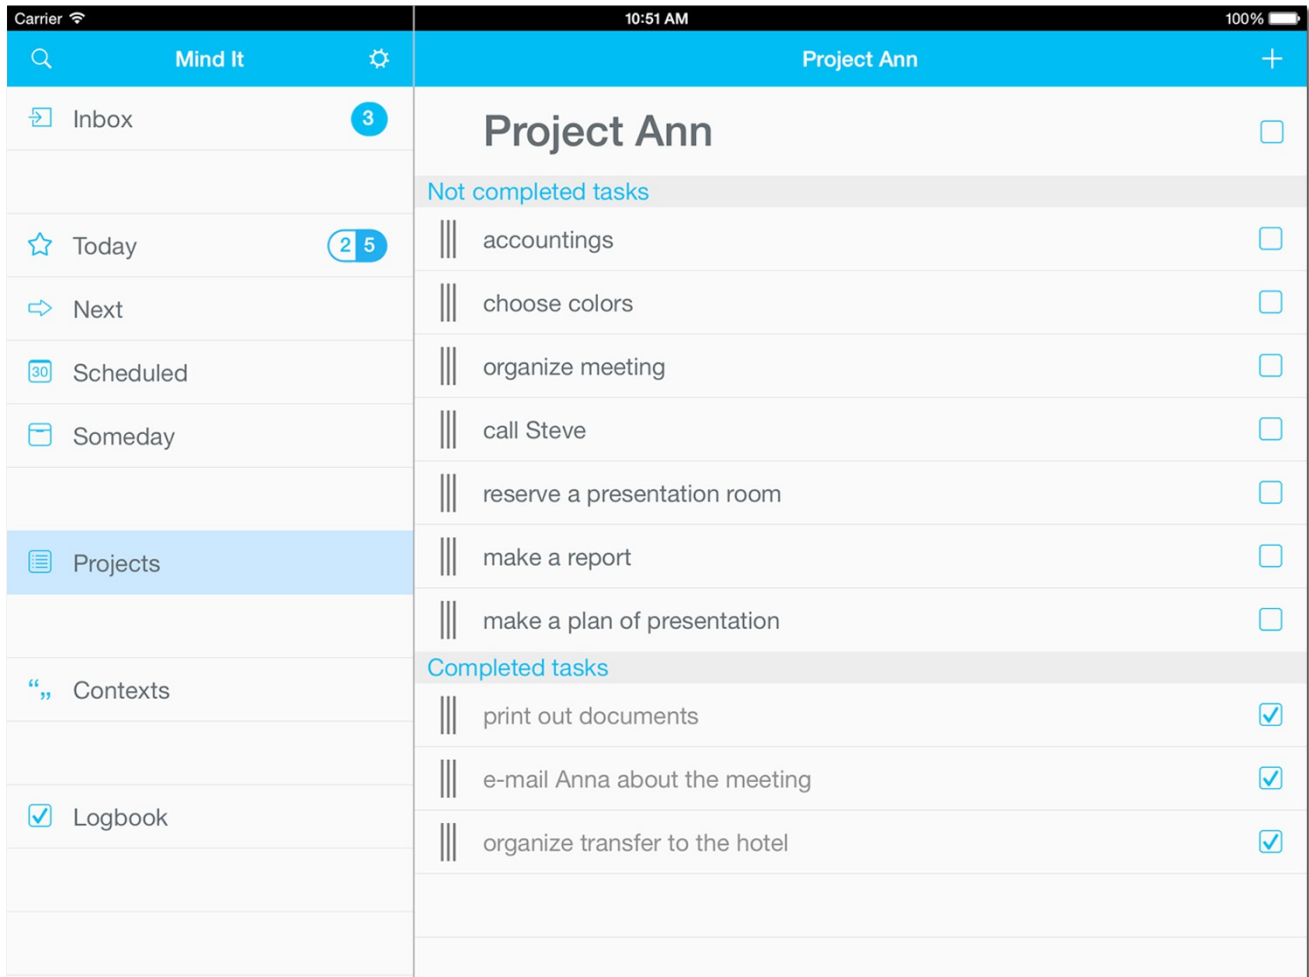

To create new project, tap «+» button in the upper right corner of the Navigation Bar.

After that, system opens «Add Project» modal window.

Here you can add **Title** of project, **Notes**, create and select **Contexts**, set **Start Date & Due Date**.

In project, system allows you to create tasks
